SUMMARY

People analytics and HR transformation leader with 15+ years of experience designing data-driven HR systems and workforce solutions in global organisations. Experienced in translating HR and business needs into scalable tech solutions — including HRIS optimisation, analytics dashboards, and workflow automation — with a strong focus on applying AI and automation to redesign how work gets done. Skilled at partnering with HR, IT, and business leaders to modernise people systems, strengthen data governance, and drive measurable operational impact.

KEY SKILLS

- Leadership & Cross Functional Team Management
- HR Analytics (TA, L&D, Attrition & Retention)
- Data Governance & Architecture
- Stakeholder Engagement & Change Management
- AI Tools: Prompt Engineering, Workflow Automation
- Data Tools: Python, R, SQL, Tableau, Power BI, Excel
- HRIS: WorkDay, BambooHR, Greenhouse, ServiceNow

EXPERIENCE

AIA SINGAPORE PTE LTD – Singapore

Nov 2021 – Jul 2025

Principal, People Analytics and Workforce Transformation

- Managed enterprise-wide manpower budgeting process and facilitated HR functional strategic planning, in collaboration with senior leadership to forecast manpower needs.
- Developed attrition analytics dashboards analysing turnover by division, performance bands, and compensation ratios, enabling targeted retention strategies and reduced voluntary attrition by 8 percentage points.
- Designed and implemented workforce analytics dashboards and automated TA trackers that improved visibility into hiring performance and reduced manual reporting effort by 40%.
- Designed and automated an employment verification workflow integrating Microsoft Forms and scripted data lookups, clearing a backlog of 200+ requests and reducing turnaround time from weeks to days.
- Participated in early-stage enterprise AI evaluation (Microsoft Copilot, 2024), developing practical experience in prompt engineering and identifying real-world limitations of AI tools in HR workflows.
- Contributed to HR data governance and analytics initiatives, ensuring data integrity across people systems and supporting the foundations for scalable workforce reporting.

CIRCLES.LIFE (LIBERTY WIRELESS PTE LTD) – Singapore

Apr 2019 – Oct 2021

People & Culture Analytics Lead

- Designed and implemented recruitment, manpower and performance dashboards for leadership stakeholders, enabling real-time workforce insights and improving hiring pipeline visibility.
- Administered and extended BambooHR through custom configurations; assessed HRIS scalability, cost, and integration trade-offs; developed Google Apps Script automation to bridge system gaps in performance management workflows.
- Worked with department heads to develop workforce planning process based on business strategy and budgets.
- Led data governance and integration initiatives across multiple HR systems and external platforms (APIs, ETLs), improving data consistency and enabling cross-system workforce insights.

Regional People Partnering Lead

- Aligned workforce development with evolving business and regulatory needs, partnered with IMDA to design and execute talent development initiatives (e.g. TechSkills Accelerator to hire and train software engineers).

BUSINESS CHINA – Singapore

Oct 2018 – Jan 2019

Project Consultant (Contract)

NTUC LEARNINGHUB PTE LTD – Singapore

Sep 2013 – Aug 2018

Principal Consultant (Nov 2015 – Aug 2018)

- Led analytics project to build an explanatory model between honorariums and revenue and to optimize trainer honorariums using regression modelling and clustering.
- Partnered with stakeholders and tech partners to deliver a multi-year multi-million dollar training transformation project for banking clients, covering curation of training courses, design, delivery and basic learning analytics.

EXPERIENCE (CONTINUED)

General Manager, Institute of Business Excellence (Sep 2013 – Dec 2015)

- Led a team of learning executives to design and deliver customised learning solutions for corporate clients, with full accountability for team performance, client relationships, and business P&L.
- Built business cases for new training offerings in design thinking, and leadership skills. This included conducting feasibility studies, market forecasting and negotiating agreements with strategic partners.

ERNST & YOUNG

Oct 2009 – Jul 2013

ASEAN Advisory Learning & Development Leader (Oct 2011 – Jul 2013)

- Developed and executed L&D strategy for 1,200 Advisory professionals across 8 ASEAN countries.
- Worked with country L&D teams to ensure a consistent approach to programme delivery and manage L&D budgets.

Manager, Performance Improvement (Oct 2009 – Oct 2011)

- Led project teams on over S\$1.5m worth of projects in competency framework development, talent management, career management, corporate governance for government and corporate clients.
